## Why do you need this booklet?

This booklet is designed to give students, parents and career counsellors the information they need about the universities and colleges in Dubai's free zones. It covers general information about each institution, as well as the specific programmes of study offered. We provide you with reliable and consistent information about 28 universities and colleges in the purpose-built free zones of Dubai. They offer a minimum of one-year diplomas, including vocational education programmes, but online or distance education programmes have not been included. We hope the information will help you decide on the right institution and course for you.

The information used throughout this booklet was collected directly from the institutions concerned in November 2012.

## Why study in Dubai?

Its strategic location and multi-cultural atmosphere make Dubai a fascinating environment in which to study. The advantages of an ultra-modern city, with excellent infrastructure and a vibrant youth culture, have helped ensure that higher education in Dubai has grown dramatically over the last decade. Quality higher education opportunities in Dubai, which build skills essential to drive economic growth and development, equip young people with choices that shape their future and that of the country.

## How much do courses cost?

Fees vary considerably depending on the institution and the type of qualification sought. In the entry for each university we show you the fee range for each level of study.

## **What are the employment opportunities after graduation?**

In addition to the employability data for each institution, which is based on data gathered in 2012, we bring you a number of real-life stories of Dubai's graduates.

## **What is an 'international campus'?**

In addition to its other universities, Dubai now has the largest number of international campuses in the world - making Dubai one of the top locations for higher education students to study.

These campuses are popular with students because they allow them to study in Dubai and obtain an internationally recognised degree. As well as attracting international students to the emirate from abroad, these universities are much in demand from Emiratis and resident expatriates. There are international campuses in Dubai from ten different countries - US, UK, India, Australia, France, Pakistan, Iran, Canada, Russia and Lebanon.

## **How is quality assured?**

Students who graduate from higher education institutions in the free zones have their degrees certified by Knowledge and Human Development Authority (KHDA) for employment and other purposes in Dubai. The University and Quality Assurance International Board (UQAIB) was established by KHDA in 2008 to assure the quality of higher education in institutions in the free zones. This is an independent board of higher education experts from around the world who ensure that the academic programme being delivered in the international campus is the same as that provided at the home campus of the institution. UQAIB has been designed to provide an international approach to quality assurance that will allow foreign higher education providers to award international degrees through the international campus model.

Twenty institutions are currently reviewed by UQAIB. They offer international programmes that are accredited by the quality agency of their home countries and may also have programme accreditation from external professional bodies. The Commission for Academic Accreditation (CAA), which is part of the Ministry of Higher Education and Scientific Research, also licenses some institutions in the free zones.

Students'  
Stories

## Heriott-Watt University

“ Muhammad Hasan Shariq completed a BEng in Mechanical Engineering at Heriot-Watt University, Dubai, from September 2006 to June 2010, graduating with first class honours.

Muhammad's most notable achievement at Heriott-Watt was the design and construction of an autonomous self-configuring robot for his final year project. This project was awarded the prize for the best final year project by the Institution of Mechanical Engineering (IMechE), in competition with students from both the Dubai and UK campuses. The project was also nominated for the 2010 Thales Scottish Technology Prize, and was awarded 2nd place in the undergraduate section.

Muhammed was then awarded a scholarship to study for an MSc in Mechatronics at Newcastle University in the UK, which he completed with Distinction.”

**Muhammad Hasan Shariq**  
Heriott-Watt Alumni

## Manipal University

“ Nikita Arora is a budding journalist who completed her B.A in Media and Communications at Manipal University, Dubai. As well as being academically bright, she was also actively involved in sporting activities. Having previously played badminton at the inter-state level in India, she won various awards for Manipal University over her three years at the university. She was awarded ‘Most Promising Youngster’ in the first year at University followed by ‘Best Badminton Player’ for two consecutive years.

Nikita was actively involved in media activities at university and covered a number of important media events, including the Dubai International Film Festival, Sharjah Book Fair, the Index Exhibition and the Gulf Film Festival. She interviewed a number of prominent personalities, including politicians and actors and, in her last six months at university, she directed and edited a 30 minute documentary ‘The Incredible Bulk’, about waste generation and management in Dubai.

Nikita is currently training at NDTV, a premier news channel in India, in the field of broadcast journalism.”

**Nikita Arora**  
Manipal Alumni

## ESMOD

“ Madeyya Saif Almazroei completed her French Higher Diploma in Fashion Design and Pattern Making at ESMOD in 2010.

Of the course she said: ‘As a student, EsmoD Dubai enabled me to explore my full potential through the Pattern Drafting and Fashion Design programme. I feel that it allowed me to be creative to the fullest and to discover my sense of individualism’.

Madeyya now has her own fashion house on Jumeirah Beach Road and is an accomplished designer running a successful business.”

**Madeyya Saif Almazroei**  
ESMOD Alumni

## S.P Jain School of Global Management

“ Mkhokeli Ncube is a planner for Woolworths in Johannesburg, South Africa and completed a Global MBA at S.P Jain in Dubai.

Mkhokeli describes S.P Jain as a great place to be where he particularly enjoyed being part of a multi-national community.

As a planner for Woolworths’ Mkhokeli was initially responsible for sales budgeting, forecasting, sourcing and product flow. He has now moved to a central role, responsible for group planning, financial planning, stock management and supply chain planning.”

**Mkhokeli Ncube**  
S.P Jain Alumni

## SZABIST

“ Tanzila Aslam is a graduate of SZABIST Dubai.

She feels that SZABIST, as a small university with smaller class sizes, gave her more opportunity to ask questions, participate in discussions, and have a professor who actually knew her personally. She found the professors to be truly committed and dedicated to teaching and believes it was SZABIST’s unique learning environment that gave her the courage to start her own company.”

**Tanzila Aslam**  
SZABIST Alumni

## CASS Business School

“ Rehan Pathan completed an MBA at CASS Business School because it gave him the opportunity to specialise in Islamic Finance.

Coming from a corporate background, Rehan found that the course both consolidated his previous experience and gave him the chance to learn a lot more. He also valued the opportunity to learn from others of different backgrounds.

Rehan's thesis for his MBA became his business plan, which he put into practice last year and, for the past 12 months, he has been running his own independent financial service. ”

**Rehan Pathan**  
CASS Business School Alumni

## British University in Dubai

“ Naser Mohamed Al Marzouqi completed an MSc in Human Resources Management at the British University in Dubai in 2011 and now works as Operations Manager at Jumeirah Hospitality.

Naser feels that faculty members at BUiD are especially supportive and that they go to great lengths to ensure that students accomplish their goals. ”

**Naser Mohamed Al Marzouqi**  
British University in Dubai Alumni

## Middlesex University in Dubai

“ Andrew Elliot-Williams is Strategic Planning Manager, Middle East for Emerson Industrial Automation and he holds an MBA from Middlesex University in Dubai.

Of his course he says: “The Middlesex MBA has a strong element of strategy development, incorporating internal and external environmental analysis, which has provided me with the tools to deliver well-structured market research and business proposals within my role at Emerson where I am required to deliver evidence driven analysis to support business decisions at the highest level. The lecture content and style, including case studies coupled with coursework relating to real-life industries, not only made the subject interesting but also showed me the relevance and effectiveness of strategy management in modern businesses.” ”

**Andrew Elliot-William**  
**Middlesex University in Dubai Alumni**
